WHAT WE KNOW MAKES THE DIFFERENCE

Sold direct through our manufacturers:

A member of the Cast Stone Institute. Cast stone simulates the look and feel of natural cut stone. Cast stone is made up of natural gravel, sand, and crushed stone, such as granite or marble. Cast stone is stronger than, weathers better, has greater color consistency and costs less, than natural cut stone.

Sold through our distributor partners:

The world's largest manufacturer of stainless steel toilet accessories. They can provide everything you need to specify and purchase; from soap, paper, and tissue dispensers, to grab bars and mirrors. Their lines include recessed and surface mount electric hand dryers, and six different series of toilet partitions to meet every budget.

The most recognized name in family convenience brands of baby changing stations & child protection seats. Polyethylene, stainless steel, counter top mounded, and accessories. Now with Microban

Utilizing 20 years of aviation composite technology, Lumicor invented a patented process to capture the beauty of real botanicals, natural elements, fine textiles, architectural metals and imagination in high performance clear resins.

Fine quality lockers, utilizing solid phenolic sheets. These lockers are modular by design, which allows the sizes to be mixed or matched for maximum use of available space. From a recreational facility locker room to a designers dream, Design-Tec Lockers are your choice. Superior toughness and superb looks are not mutually exclusive.
