New & Updated
Product Information

Construction Specialties *Creating products that make buildings better*

WOW! Doesn't the name say it all? **CS** Big changes in 2008 for you and us. After representing Balco for more than 30 years we have decided to resign the line & have been appointed the new CS rep!

CS offers 9 product lines: Wall protection (Acrovyn), Floor Mats/ Grids, Expansion Joint Covers, Louvers, Sun Shades, Screens, Cubicle Track/Curtains, Explovent, and Acrovyn Doors.

There is so much that you haven't seen from CS that we think you will be pleasantly surprised!

You will be seeing a lot more of us...learning more from us... using more CS product... and getting better service from us.

Key Features

- Exceptional value-cost 30% less overall compared to plans and spec stairs.
- Technically advanced products made to handle required live and dead load requirements.
- Surpass building codes.
- Meet ADA accessibility requirements.
- Install quickly and accurately.
- Offer a wide range of construction and component options.
- Meet special design and construction requirements.

If you don't want to use the latest in etch a sketch cad to draw your stair elevations and details, then let Sharon Stair help you. For most projects we can help simplify the stair details and amount of information that you have to provide on the drawings. Sharon also includes stamped engineer drawings, that include calculations, on each project.

Latest projects: The New Indianapolis Airport Parking Garage
City Centre Parking Garage, Indianapolis
Huntington College Residence Hall, Huntington IN
IU Southeast Resident Hall, New Albany IN
Campus Suites, West Lafayette IN

Kentucky adopts 2006 IBC

NFPA 101 changes interior finish classifications.

The code now includes a revision to Chapter 8 Interior Finishes that affects Toilet Partition materials.

“Chapter 8 Interior Finishes. Section 802, Interior Wall and Ceiling Finish definition which applies to all occupancies now includes toilet room privacy partitions.”

In other words toilet partitions are now classified as an interior finish and thus must meet Section 803 Wall and Ceiling Finish general statement for flame spread and smoke development.

In order to be fully compliant with the new code we suggest a specification that includes Solid Color Reinforced Composite, Plastic Laminate, or Solid Phenolic materials. All of which are available from Bobrick and all meet the relevant revised Interior Finish classification.

www.wmbakerco.com Gets New Makeover.

Did you know that one of us here at Baker is part owner of a race car team, and that one of us had a very embarrassing sales call? You can learn all about each Baker employee by visiting our brand new web site. There is even a video where Jim Baker introduces the key features of the site and tells a bit about the vision of Wm Baker Company. We are very proud of the new site and would like to hear from you with your thoughts and comments. If you are one of the first five folks that visit the site and then call us we will send you a very nice stainless steel WEB drink tumbler...absolutely free!

THE STAND UP CORNER...

Thank goodness we don't do this for a living!

If Opportunity doesn't knock, build a door.

.....
The nice thing about being senile is you're always meeting new people.
.....

Why did Johnny get such low grades after Thanksgiving?
Because everything is marked down after the holidays.
